

CALCULATING POOL SIZE

Length x Width x Avg. Depth x Shape Multiplier = Gallons

Rectangular, Square or Free-form Multiplier = **7.5**
Round or Oval multiplier = **5.9**

Example Rectangular Pool
 $45 \times 30 \times 5 \times 7.5 = 50,625 \text{ Gal}$

Example Oval Pool
 $45 \times 30 \times 5 \times 5.9 = 39,825 \text{ Gal}$
