4. FIRST-AID MEASURES

First Aid Measures

General Advice Provide this SDS to medical personnel for treatment.

Eye Contact Immediately flush with large quantities of water for at least 15 minutes until irritation

subsides. Get medical attention.

Skin Contact Wash w/ soap & water for @ least 15 minutes. Get medical attention if symptoms persist.

Remove & wash contaminated clothing.

Inhalation Remove to fresh air. If breathing is difficult, leave area to obtain fresh air. If breathing

remains difficult, get medical attention.

Ingestion Do not induce vomiting unless directed by medical personnel. If vomiting occurs, lean

patient forward to maintain an open airway & prevent aspiration. Get immediate medical

attention.

Most important symptoms and effects

Symptoms Prolonged or repeated skin contact may result in dermatitis (red, dry skin). Direct contact

with eyes may cause temporary irritation. Exposed individuals may experience eye tearing, redness and discomfort. Irritating to mouth, throat, and stomach if ingested. May cause gas trointestinal irritation, nausea, diarrhea, and vomiting. Overexposure to vapors during application and curing may mildly irritate respiratory tract and result in coughing and

sneezing.

Indication of any immediate medical attention and special treatment needed

Notes to Physician Medical Conditions Aggravated by Exposure: Asthma & asthma-like conditions may worsen

from prolonged or repeated exposure to dust, should sanding be performed.

^{*} Unlisted ingredients are not considered hazardous under the OSHA Hazard Communication Standard (29 CFR 1910.1200). (Calcium Carbonate, Titanium Dioxide and Soda lime borosilicate glass) Inhalation of particulates unlikely due to product's physical state

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Carbon dioxide (CO2). Dry chemical. Water spray (fog). Foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media Not determined.

Specific Hazards Arising from the Chemical

Product is combustible & mayignite if exposed to high temperature or direct flame.

Hazardous Combustion Products Carbon oxides. Nitrogen oxides (NOx).

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Use water spray to keep fire-exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions Wear protective clothing as described in Section 8 of this safety data sheet.

Other Information Small Spills: 1 drum or less – Level D Equipment (gloves, chemical resistant apron, boots &

eye protection).

Large Spills: Rubber gloves, rubber boots, face shield & Tyvek suit as a minimum. Minimum level of PPE for releases in which the oxygen level is < 19.5% or is unknown, should be Level B: triple gloves (rubber gloves & nitrile gloves over latex gloves), chemical resistant suit, fire-retardant clothing & boots, hard hat & self-contained breathing apparatus.

Revision Date: 18-Jun-2014

For Emergency Responders Restrict access to spill area.

Environmental Precautions Minimize use of water to prevent environmental contamination. Prevent spill or rinse from

contaminating storm drains, sewers, soil or groundwater. Do not allow discharge containing

this material to enter streams, ponds, estuaries, oceans or other waters unless in accordance w/ requirements of National Pollutant Discharge Elimination System (NPDES)

permit & permitting authority has been notified in writing prior to discharge. Do not allow discharge containing this material to enter sewer systems w/o previous lynotifying local sewage treatment plant authority. For information, contact State Water Board or EPA

Regional Office

Other: U.S. regulations may require reporting of spills of this material reaching surface

waters if sheen is formed.

Methods and material for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so. Use absorbent material to contain spill.

Methods for Clean-Up Sweep up absorbed material and shovel into suitable containers for disposal. Wash area

with soap and water. For waste disposal, see section 13 of the SDS.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling Keep out of reach of children & pets. Do not take internally. Do not breathe vapors or dust.

If dry sanding use NIOSH-approved dust mask. Use onlyw/ adequate ventilation. Wash thoroughly after handling. Avoid contact w/ eyes, skin & clothing. Open windows & doors to ensure cross-ventilation & fresh air during application & curing. Do not eat or drink while

handling this material. In event of spill - see Section 6.

RD-0022PTG - **Pre-mixed Tile Grout** Revision Date: 18-Jun-2014

Conditions for safe storage, including any incompatibilities

Storage Conditions Stable of

Stable under normal conditions of handling, use & storage. Store containers in a cool, dry location, away from direct sunlight & high temperatures. Protect from freezing. Store away from incompatible materials (caustics & oxidizers). Close container after each use & keep tightly closed when not in use. To maximize shelf life, store @ temperatures below 26C (80F).

Incompatible Materials

Strong bases. Oxidizing agents.

Appropriate engineering controls

Engineering Controls

Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Provide appropriate local exhaust ventilation if material is to be sanded.

Revision Date: 18-Jun-2014 RD-0022PTG - Pre-mixed Tile Grout

Individual protection measures, such as personal protective equipment

Eye/Face Protection Use approved safety goggles or safety glasses. If necessary, refer to appropriate

regulations & standards.

Skin and Body Protection Skin: Wear chemical resistant rubber gloves for repeated or prolonged use.

Body: Not required w/ normal use.

Respiratory Protection Avoid breathing of dust. Avoid breathing of vapors, mists or spray. If concentrations exceed

exposure limits specified, use a NIOSH-approved supplied air respirator. If protection factor exceeded, use self contained breathing apparatus (SCBA). A respiratory protection program that exceeds OSHA 1910.134 & ANSI Z88.2 requirements should be followed when conditions warrant respirator use. If dry sanding preferred, use approved

NIOSH/OSHA respirator.

General Hygiene Considerations Wash hands w/soap & water before breaks & @ end of workday. Remove & wash

contaminated clothing prior to re-use.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization Not known to be human skin or respiratory sensitizers.

Carcinogenicity Titanium dioxide is a possible carcinogen when it appears as a respirable dust

Product contains trace amounts of residual Formaldehyde. OSHA & NTP identify Formaldehyde as a potential carcinogen. IARC identifies Formaldehyde as a human carcinogen. Formaldehyde has been shown to cause mutations in a variety of in-vitro test systems, w/human significance unknown. Rats have shown carcinogenic effects in respiratory system. Risk should be minimal when used w/adequate ventilation. Maintain

adequate ventilation to prevent exposure above OSHA exposure limits.
