- Eye contact:** Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persist or if concerned.

**Most important symptoms and effects, both acute and delayed:**  
Stinging and irritation of eyes.

**Indication of any immediate medical attention and special treatment needed:**  
If seeking medical attention provide SDS document to physician.  
Physician should treat symptomatically.

## Section 5. FIREFIGHTING MEASURES

**Suitable extinguishing media:** Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

**Specific hazards:** Thermal decomposition can lead to release of irritating gases and vapors.

**Fire Fighting Methods:** Wear protective eyewear, gloves and clothing. Refer to Section 8. Use NIOSH-approved respiratory protection/breathing apparatus. Avoid inhaling gases, fumes, dust, mist, vapor and aerosols. Avoid contact with skin, eyes and clothing.

## Section 6. ACCIDENTAL RELEASE MEASURES

<b>Personal Precautions:</b>	Ensure adequate ventilation. Ensure that air-handling systems are operational.
<b>Environmental Precautions:</b>	Should not be released into environment. Prevent from reaching drains, sewer or waterway.
<b>Methods for Containment and Clean up</b>	Wear protective eyewear, gloves and clothing. Refer to Section 8. Always obey local regulations. If necessary used trained response staff or contractor. Evacuate personnel to safe areas. Use spill berms to contain spill and absorb spill from outside working way towards center. Place in appropriate container for disposal. For disposal, refer to Section 13.

## Section 7. HANDLING AND STORAGE

<b>Handling:</b>	Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke or use personal products when handling chemical substances. If skin irritation or allergies occur, avoid contact with skin.
<b>Storage:</b>	Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Keep container tightly sealed. Store away from incompatible materials.

## Section 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Occupational Exposure Limits:** No Components found

**Engineering measures:** Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Not required under normal conditions of use. If chemical splash is expected while handling bulk solution, emergency eye wash fountains should be available.

### PERSONAL PROTECTIVE EQUIPMENT

**Respiratory protection:** None required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

**Skin and body protection:** May cause mild to moderate skin irritation or allergic reaction in some individuals. Wash hands thoroughly if affected and discontinue use.

**Eye protection:** No eye protection is required when using product as intended, If chemical splash is expected, wear eye protection.

**Hygiene measures:** Not required under normal conditions of use.
