# UNITE

Experience convenience, connectivity and seamless access control with the Kwikset UNITE™ EAC Platform. Electronic locks, cloud-based web and mobile software, and smart credentials work together to deliver a simple yet comprehensive solution for managing your multifamily property.

Deadbolt Model #: 1000

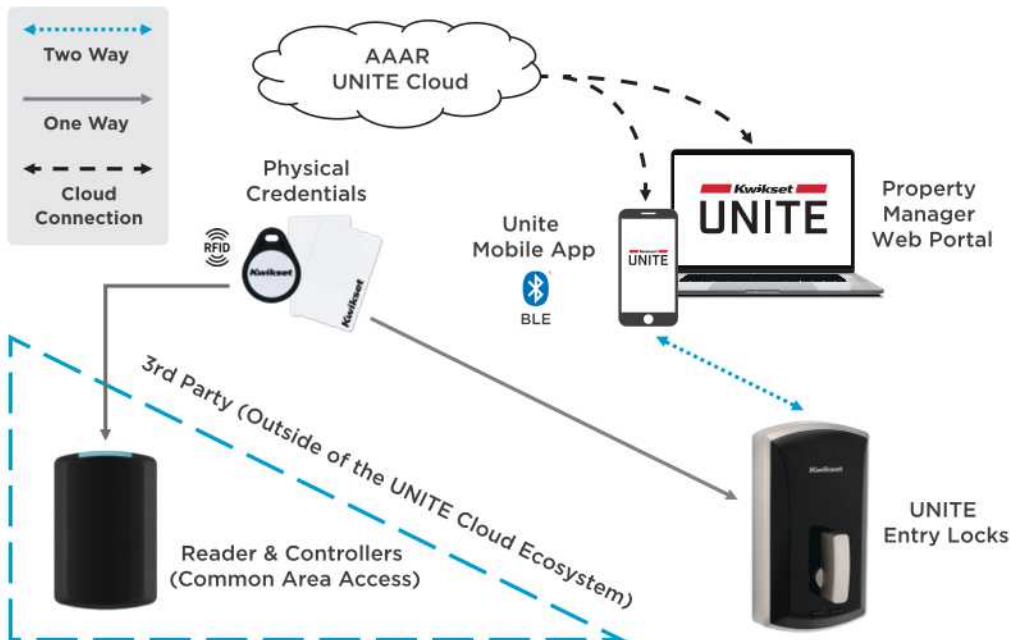

Interconnect Model #: 1100

**Finishes**  
Available in split finishes

## Key Components

## Component Functions

### Software

Stores all data for system and is the "brain" in the operating flow

### Credentials

These are the "keys" providing user access

### Entry Locks

For resident dwellings, UNITE locks are offline, communicate with cloud via connected devices only, also allow access using physical credentials

### 3rd Party Reader Controllers

Used to operate common-area openings. "Dual" credentials enable integration into UNITE
